Product designer and designer-developer with **13 years of experience** across mobile apps, design systems, branding, and complex web products. Co-founded and led design for **Mutual, the #1 LDS dating app, as well as Ark, one of the top Christian dating apps in the App Store**. Combines product strategy, research, polished interaction design, and production code to take products from concept through launch. Early AI adopter using AI across research, prototyping, implementation, testing, and handoff.

EXPERIENCE

Paramore.Design

2025 – Present

FOUNDER · PRODUCT DESIGNER & DEVELOPER

- Design and build custom AI-powered web and mobile tools for small businesses across field operations, intake, scheduling, reporting, client management, and payments. A typical tool replaces four to six SaaS subscriptions and ships in weeks.
- **The Tree Service:** Built a field-operations tool used daily on iPads for safety checklists, pre-trip inspections, fuel and receipt capture, and fleet maintenance; retired four subscriptions.
- **Utah Valley Bride:** Replaced a spreadsheet and manual email loop with a submissions and workflow portal spanning 138 vendor submissions; deployed August 2026.
- **GolfSheds:** Lead fractional digital product management across an AI knowledge base, request system, handbook and checklist framework, department dashboards, and JobTread API integration.
- **Brand and identity:** Delivered the Paramore Real Estate rebrand, signage, and two website rebuilds, plus the Sports Transport logo and brand package.

Mutual Dating

2015 – 2026

CO-FOUNDER · FOUNDING DESIGNER · DIRECTOR OF UI/UX DESIGN

- Co-founded and designed the #1 LDS dating app in the world, responsible for 40,000+ marriages. Served as sole designer for ten years across product, research, brand, and design direction.
- Built the Mutual Design System across three brands and six themes, with semantic tokens and live Web Content Accessibility Guidelines (WCAG) contrast checks so engineers and AI agents could build accessible, on-brand UI from one source.
- Redesigned onboarding from one long form into a stepped flow with an early exit, validated through in-person testing of two competing concepts. The result: 97% completed the full profile and about 80% completed verification after it was folded into onboarding.
- Helped grow Mutual from a scrappy startup into a multi-million-dollar business, working part-time for five years before moving full-time in 2021. Shipped nearly every customer-facing and brand surface.

Ark Dating

2023 – 2026

FOUNDING DESIGNER · DIRECTOR OF UI/UX DESIGN

- Launched a second dating app by white-labeling Mutual; Ark is now one of the top 5 Christian dating apps in the App Store. Built and maintained dual design systems feeding parallel codebases, and owned research, brand, and product design end to end.

Nu Skin

2019 – 2021

SENIOR UI/UX DESIGNER

- Designed and researched payment processing, discount-code, and analytics experiences for the web team, streamlining checkout and discount flows so customers could complete orders and receive earned offers.
- Built Nu Skin's first Figma design system and led the design team's migration from Sketch. Partnered with engineering to form the first DevOps team and establish a shared system for designers and developers.

Stotion

2014 – 2019

SENIOR UI/UX DESIGNER

- Shipped product work for dozens of clients at a UX-focused studio, including 3D roof-scanning drone tools, healthcare portals and dashboards, card decks, and event experiences.

Led product design across agency clients, partnering with engineering from kickoff through launch and working directly with clients to shape their vision into cohesive products.

SELECTED INDEPENDENT PRODUCTS

Checkin

IOS · ANDROID · WEB

Social coordination app where friends signal availability through campfire check-ins. Owned concept, strategy, design, and development. Shipped on iOS and Android; shipped the web version in 2026 after porting it screen by screen from the Swift source.

Zelda: Breath of the Wild UI Kit

FIGMA COMMUNITY ·
UI KIT

Created and published a reusable Figma UI kit inspired by the game's interface system. Featured on the Figma Community homepage, the resource has reached 300k+ views and 17k+ downloads.

Paramore Platform

PWA · SUPABASE

Nine small apps on a shared sign-in, storage layer, and progressive web app shell, each live at its own paramore.design subdomain: Tain, Keeper, Flare, Magnet, Chores, Radio, Upkeep, Kill The Fish, and Bank. Also built SPNkr Server Manager, a self-hosted game-server dashboard controllable from Discord. Scaffolded, art-directed, built, and deployed every product solo.
