12+ years of product design across consumer, enterprise, and mobile. Now building **custom AI-powered tools for small businesses** — replacing the stack of half-used SaaS subscriptions that nickel-and-dime owners with one tool, designed and shipped by one person.

EXPERIENCE

Paramore.Design

Founder · Designer-Developer

[YEAR] — PRESENT

- Designing and building custom AI-powered tools for small businesses — operations, scheduling, intake, and reporting that replace 4–6 SaaS subscriptions per client.
- Recent builds: field-ops tool for Brandon's Tree Co. (equipment, fuel, AI-parsed receipts) and a magazine submissions platform for Utah Bridal.

SELECTED PROJECTS

Brandon's Tree Co. — Field Ops Tool

TRADES · OPERATIONS

Replaced four separate SaaS subscriptions with one tool for equipment tracking, fuel logs, AI-parsed receipts, and crew scheduling — built around how the crew actually works in the truck.

Utah Bridal — Magazine Workflow

PUBLISHING · OPERATIONS

Submissions, status, payments, scheduling, and designer handoff — collapsed from a tangle of spreadsheets into one tool the whole team uses.

Checkin

PERSONAL · IOS & ANDROID

Social coordination app where friends signal availability through campfire check-ins. Design, development, and product strategy — start to ship.
