

HUNTER.PARAMORE

DESIGN DIRECTOR · UX DESIGNER · AI TOOLS FOR SMALL BUSINESS

paramore.design

hparamore@gmail.com

LinkedIn · GitHub

12+ years of product design across consumer, enterprise, and mobile. Now building **custom AI-powered tools for small businesses** – replacing the stack of half-used SaaS subscriptions that nickel-and-dime owners with one tool, designed and shipped by one person.

EXPERIENCE

Paramore.Design

Founder · Designer-Developer

2025 – PRESENT

- Designing and building custom AI-powered web and mobile products for small businesses – operations, scheduling, intake, and reporting that replace 4–6 SaaS subscriptions per client. Delivering solo what used to require a full dev team and tens of thousands of dollars.
- Recent builds: The Tree Service (equipment, fuel, AI-parsed receipts and bids, crew scheduling), magazine submissions and organization tools for Utah Valley Bridal, and internal project-management tools for tracking clients, tasks, and payment processing.

Mutual Dating

App Founder · Director of UI/UX Design

2015 – PRESENT

- The #1 LDS dating app in the world – responsible for 40,000+ marriages, which is both humbling and fills me with joy.
- Solo designer-founder; grew Mutual from a startup into a fully-fledged multi-million-dollar business. Part-time from the start, full-time since 2021.
- Owned all UI design, product and user research, design systems, brand identity, and product design.

Ark Dating

Founding Designer · Director of UI/UX Design

2023 – PRESENT

- White-labeled the Mutual product into a new app – built and ran dual design systems, each feeding a clone of the same codebase.
- Owned user research, brand identity, and product design end-to-end.

Nu Skin

Sr. UI/UX Designer

2019 – 2021

- Product design and research on the web team – focused on payment processing, discount codes, and analytics. Work shipped impact across the entire business: more completed checkouts and earned discounts applied faster.
- Built Nu Skin's design system in Figma and led the design team through the migration from Sketch.

Stotion

Sr. UI/UX Designer

2014 – 2021

- UX-focused design studio in Provo, UT. Worked with dozens of clients on projects ranging from 3D roof-scanning drone tools to healthcare portals and dashboards, card decks, battle buses, and everything in between.

SELECTED PROJECTS

Tech 9 – Sr. Product Designer

AGENCY · PRODUCT DESIGN

Helped a range of agency clients achieve their product vision – design moving in parallel with development from kickoff to launch.

Checkin App

PERSONAL · IOS & ANDROID

Social coordination app where friends signal availability through campfire check-ins. Design, development, and product strategy from initial concept to shipping on iOS and Android.

Angel Studios

Converted and standardized their design systems for consistent use across multiple platforms.

The Tree Service – Field Ops Tool

TRADES · OPERATIONS

Replaced four separate SaaS subscriptions with one tool for equipment tracking, fuel logs, AI-parsed receipts and bids, and crew scheduling / safety checklists – built around how the crew actually works in the truck.

Utah Bridal – Magazine Workflow

PUBLISHING · OPERATIONS

Photo and article submissions, status, payments, scheduling, and content handoff. Collapsed a tangle of spreadsheets into one tool the entire team uses – replacing half a dozen smaller paid services and making everyone's job easier.

Paramore Real Estate

BRAND · WEB

Brand identity and website for the brokerage in Burns, Oregon – making it easy to publish listings and print brochures. The orange signs stand out on a street, and are hard to miss.

CRAFT

DESIGN

Product · UX · Visual · Design Systems · Prototyping · Figma · Rive · Illustrator · Photoshop · InDesign

ENGINEERING

SwiftUI · Kotlin / Jetpack Compose · React Native · HTML/CSS · Unity · SpriteKit

DATA & AI

Firebase · Supabase · Claude Code · Anthropic API · OpenAI API · Tool-use & Agents · Cloudflare

PRACTICE

User Research · Workshop Facilitation · Cross-functional Leadership · Mentoring · Detail-Oriented

HOBBIES

3D Modeling · 3D Printing · Laser Cutting / Engraving · Drumming · Airsoft · Game Design · Gardening · Hiking · Jiu-Jitsu

EDUCATION

BYU–Idaho

BFA in Design

2013

RECOGNITION

- Frequent guest lecturer at BYU and UVU.
- Yearly UVU Capstone Class mentor.
- Featured Design System on Figma's website – 300k+ views, 17k+ downloads.
