PROJECT

Website redesign with online booking

WHAT WE TALKED ABOUT

New patients find the practice online but call to book, and the site is hard to use on a phone. You'd like a site that looks as good as the office and lets patients book themselves.

WHAT I'LL DELIVER

- A five-page website: Home, Services, About, New Patients, Contact
- A mobile-friendly design, with online booking through your current scheduling system
- Basic search setup: page titles, descriptions, and your Google Business profile
- Two rounds of revisions, and a 30-minute walkthrough so your team can update hours and photos

NOT INCLUDED

Writing new copy, photography, hosting and domain fees, and ongoing updates after launch. I'm happy to quote any of these separately.

TIMELINE

About four weeks from the deposit: design in weeks one and two, build in week three, review and launch in week four. The timeline assumes I get content and feedback within three business days.
