SENIOR / STAFF PRODUCT DESIGNER · DESIGN SYSTEMS · DESIGNER-DEVELOPER

Product designer with 13 years shipping consumer and operational products, most of it as the founding or only designer. **Co-founded Mutual, the #1 LDS dating app, and led design for ten years as it grew from a startup into a multi-million-dollar business responsible for 40,000+ marriages.** I own products from research and strategy through design systems, production code, and launch. AI-native in practice: I use it across research, prototyping, implementation, and handoff, and build design systems structured so engineers and AI agents produce correct, accessible UI from one source.

EXPERIENCE

Paramore.Design
FOUNDER · PRODUCT DESIGNER & DEVELOPER — 2025 – PRESENT

- Design and ship custom software end to end, using AI across research, prototyping, and implementation. Field operations, intake, scheduling, reporting, and payments. A typical tool replaces four to six SaaS subscriptions and ships in weeks rather than quarters.
- The Tree Service: Built a field-operations tool used daily on iPads for safety checklists, pre-trip inspections, fuel and receipt capture, and fleet maintenance; retired four subscriptions.
- Utah Valley Bride: Replaced a spreadsheet and manual email loop with a submissions and workflow portal spanning 138 vendor submissions; deployed August 2026.
- GolfSheds: Lead fractional digital product management across an AI knowledge base, request system, handbook and checklist framework, department dashboards, and JobTread API integration.
- Brand and identity: Delivered the Paramore Real Estate rebrand, signage, and two website rebuilds, plus the Sports Transport logo and brand package.

Mutual Dating
CO-FOUNDER · FOUNDING DESIGNER · DIRECTOR OF UI/UX DESIGN — 2015 – 2026

- Co-founded and designed the #1 LDS dating app in the world, responsible for 40,000+ marriages. Served as sole designer for ten years across product, research, brand, and design direction.
- Built the Mutual Design System across three brands and six themes, with semantic tokens and live Web Content Accessibility Guidelines (WCAG) contrast checks so engineers and AI agents could build accessible, on-brand UI from one source.
- Redesigned onboarding from one long form into a stepped flow with an early exit, validated through in-person testing of two competing concepts. The result: 97% completed the full profile and about 80% completed verification after it was folded into onboarding.
- Set design direction and standards for a company of roughly 30, as the only designer across two shipping products. Worked part-time for five years before moving full-time in 2021, and shipped nearly every customer-facing and brand surface.

Ark Dating
FOUNDING DESIGNER · DIRECTOR OF UI/UX DESIGN — 2023 – 2026

- Launched a second consumer dating app by white-labeling Mutual, opening the product to a broader Christian audience without a second engineering team. Ark is now one of the top 5 Christian dating apps in the App Store.
- Owned research, brand identity, and product design end to end. Built and maintained dual design systems feeding parallel codebases, giving Ark its own identity while both apps shared one build.

Nu Skin
SR. UI/UX DESIGNER — 2019 – 2021

- Designed and researched payment processing, discount-code, and analytics experiences for the web team, streamlining checkout and discount flows so customers could complete orders and receive earned offers.
- Built Nu Skin's first Figma design system and led the design team's migration from Sketch. Partnered with engineering to form the first DevOps team and establish a shared system for designers and developers.

Stotion
SR. UI/UX DESIGNER 2014 – 2019

- Shipped product work for dozens of clients at a UX-focused studio, including healthcare portals and dashboards, 3D roof-scanning drone tools, and event experiences.

CONTRACT & AGENCY EXPERIENCE

Angel Studios
DESIGN SYSTEMS · CONTRACT · 2025

- Unified design systems and documentation into one consistent foundation across platforms.

Tech 9
SENIOR PRODUCT DESIGNER · AGENCY

- Led product design across agency clients, partnering with engineering from kickoff through launch.

SELECTED INDEPENDENT PRODUCTS

Checkin
IOS · ANDROID · WEB

- Social coordination app where friends signal availability through campfire check-ins. Owned concept, strategy, design, and development; shipped natively on iOS and Android, with a web version in 2026.

Zelda: Breath of the Wild UI Kit
FIGMA COMMUNITY · UI KIT

- A reusable Figma UI kit inspired by the game's interface system, featured on the Figma Community homepage.

Paramore Platform
PWA · SUPABASE

- Nine products on one shared sign-in, storage layer, and progressive web app shell, each live at its own paramore.design subdomain. Scaffolded, art-directed, built, and deployed solo.

SKILLS

AI IN PRODUCT DESIGN

Claude Code · Anthropic API · OpenAI API · Tool Use & Agents · MCP · AI-assisted research, prototyping & implementation · Design systems structured for agent use

DESIGN

Figma (Expert) · Product & UX Strategy · UI & Interaction Design · Design Systems & Tokens · Platform-Native Design · Prototyping · User Research & Usability Testing · Accessibility (WCAG) · Brand & Visual Identity · Motion (Rive, After Effects)

ENGINEERING

Swift / SwiftUI · Kotlin / Jetpack Compose · React · Next.js · TypeScript · HTML / CSS · Tailwind · Supabase · Firebase · Vercel

PRACTICE & COLLABORATION

Design Direction & Standards · Cross-functional Leadership · Mentoring & Design Critique · Workshop Facilitation · Roadmapping & Prioritization · Stakeholder Communication

EDUCATION & CERTIFICATES

BFA in Graphic Design, BYU-Idaho. Certificates: Product Psychology Masterclass (Growth.Design) · Interaction Design Foundation · Google Analytics.

LEADERSHIP & RECOGNITION

- Frequent guest lecturer at BYU and UVU; annual UVU capstone class mentor.
- Published Figma UI kit featured on the Figma Community homepage. 300k+ views, 17k+ downloads.
